

DATA SHEET

Selekt™ Energi

Presentation	<p>A cloudy liquid with a sediment, each kilogramme of which contains the following ingredients.</p> <p>Glycerol Ph. Eur..... 630 g Propane-1,2-diol, U.S.P..... 320 g Dry yeast..... 46 g Excipients..... 4 g</p>
Uses	<p>For reduction in the risk of ketosis in dairy cows and twin-lamb disease in ewes. Also for ketosis recuperation. Provides glucogenic energy sources.</p>
Instructions for feeding	<p>Selekt™ Energi should be mixed with warm water and delivered into the rumen with a Selekt™ pump-drencher. It may be mixed with solutions of other Selekt™ formulae without additional water.</p> <p>Give cows 1 kg (approximately 1 litre); a further dose is not usually necessary, but may be given at 12 hours if required. Give ewes 200 g (approximately 200 ml) twice daily.</p> <p>Shake the bottle before use. It may be necessary to add warm water to drain the dry yeast after pouring off the liquid fraction.</p>
Contra-indications and warnings	<p>Do not exceed the recommended amounts to be fed. Selekt™ Energi is to be used in accordance with veterinary advice.</p>
Legal category	<p>Dietetic feeding stuff</p>
Package quantity	<p>Box containing 6 x 1 kg</p>
