

Calz-o-Phos liquid

For the intensive supply of cows with calcium and phosphorus before and after calving

For the intensive supply of cows with calcium and phosphorus before and after calving, particularly for high milk-yielding cows. In addition, the administering of Calz-o-Phos liquid can distinctly abbreviate the recovery period of the cow after calcium infusion.

- Free of calcium chloride
- Highly mucus-compatible

- Particularly for high milk-yielding cows
- Contains 59 g calcium and 45 g phosphorus per bottle

Sales unit: 500 ml bottle

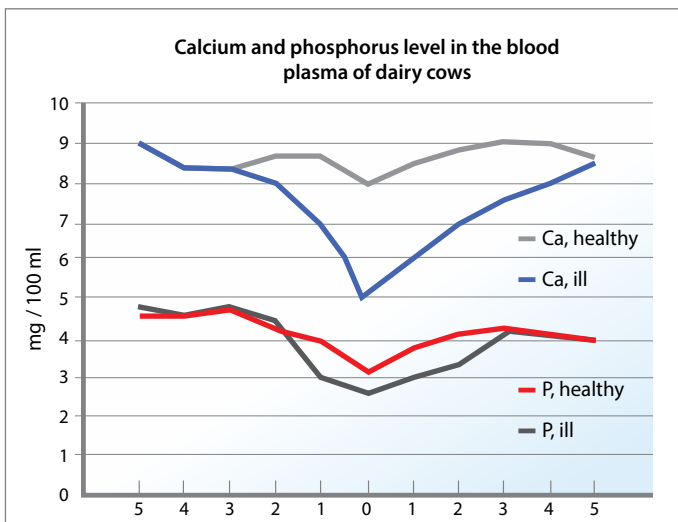

Product code: SA00001

Sales unit: 5 l canister

Product code: SA00002

Sales unit: 10 l canister

Product code: SA00003

Subject to modifications. AC-COPL-EN-03-14-A
