# **SECTION 4: First aid measures**

### 4.1. Description of first aid measures

#### General information

Take affected person to fresh air.

#### After inhalation

In low concentrations may cause narcotic effects. Symptoms may include dizziness, headache, nausea and loss of co-ordination. In high concentrations may cause asphyxiation. Symptoms mayinclude loss of mobility/consciousness. Victim may not be aware of asphyxiation. Remove victim to uncontaminated area wearing self contained breathing apparatus. Keep victim warm and rested.Call a doctor. Apply artificial respiration if breathing stopped.

### After skin contact

In case of frostbite, rinse with plenty of water. Do not remove clothing. Cover wounds with sterile dressing. Summon a doctor immediately.

### After eye contact

Separate eyelids, wash the eyes thoroughly with water (15 min.). Seek medical advice immediately.

#### After ingestion

Ingestion is not considered a potential route of exposure.

### Adhere to personal protective measures when giving first aid

First aider: Pay attention to self-protection!

**4.2. Most important symptoms and effects, both acute and delayed** No further relevant information available.

### 4.3. Indication of any immediate medical attention and special treatment needed

### 5.3. Advice for firefighters

### Special protective equipment for fire-fighting

Do not inhale explosion and/or combustion gases. Use self-contained breathing apparatus. Wear protective clothing.

#### Other information

Cool endangered containers with water spray jet. If possible, stop flow of product. Do not extinguish a leaking gas flame unless absolutely necessary. Spontaneous/explosivereignition may occur.

### **SECTION 6: Accidental release measures**

### 6.1. Personal precautions, protective equipment and emergency procedures

Wear self-contained breathing apparatus when entering the area unless the atmosphere is proven to be non-hazardous. Clear area. Ensure adequate ventilation. Keep away sources of ignition. Refer to protective measures listed in Sections 7 and 8.

### 6.2. Environmental precautions

Try to stop the gas leakage. Prevent penetration into sewers, cellars, working pits or other places where accumulation can be dangerous.

### 6.3. Methods and material for containment and cleaning up

Ensure sufficient ventilation. Keep area evacuated and free from ignition sources until all spillage has evaporated. (Ground is free of frost).

### 6.4. Reference to other sections

Refer to protective measures listed in Sections 7 and 8.

### **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

#### Advice on safe handling

Reliably ground equipment. Only use equipment that is suitable for this product and the intended pressure and temperature. Follow the instructions for use exactly. Keep away from sources of ignition!
