

# quick'n fix<sup>®</sup>

## the silo bag fixation with system

### quick'n fix<sup>®</sup> silo bag fixation

prevents the bags from sliding down the silage clamp. Zill silo bags with a handle in the supporting sleeve can be easily hooked into the very strong metal-hooks to achieve a very stable barrier and sealing. quick'n fix<sup>®</sup> also ensures an optimal and flexible sealing at the first cut.

quick'n fix <sup>®</sup>	
size in m	equipment
4.3	5 hooks + 1 connection-hook
10.3	11 hooks + 1 connection-hook
