

## DATA SHEET

# Selekt™ Off Feed

**Presentation** A beige powder, each 785 grammes of which has the following composition.

Calcium propionate .....	500 g
Magnesium sulphate 7-hydrate.....	150 g
Potassium chloride .....	80 g
Dry yeast.....	50 g
Gentian root.....	5 g

Total calcium content: 108 g.

**Uses** For inappetant cows. Also provides rehydration.

**Instructions for feeding** Selekt™ Off Feed should be dissolved in warm water at a rate of one 785-gramme sachet in 20 litres. The solution should be delivered into the rumen with a Selekt™ pump-drencher. If additional rehydration is required, give a solution of Selekt™ Restore in 20 litres of warm water as well, i.e. 40 litres in total.

**Contra-indications and warnings** Do not use less than 20 litres of water to dissolve the contents of the sachet. Do not give more Selekt™ Off Feed until 12 hours have elapsed.

**Further information** Selekt™ Off Feed is to be used in accordance with veterinary advice.

**Legal category** Complementary feeding stuff.

**Package quantity** Box containing 12 x 785 grammes

**Marketed by** Nimrod Veterinary Products Ltd
